SLAV CHERVENPEEV

PROFILE

I am an Informatics student at the University of Plovdiv, Bulgaria. I am highly-motivated and progress-focused person and my social abilities and hard work have always stood out as my strong suits. I'm looking for a job in the computer industry, where I can continue developing my knowledge and experience. My previous jobs have ensured that I have acquired great qualities such as leadership, teamwork, time management and effective communication with people. I am excited to bring the same level of success and passion to your esteemed institution.

WORK EXPERIENCE

SoftUni University

Moderator

I have worked at the famous online university *SoftUni* as a moderator. My job was to communicate with students via messages and chat during online lectures which were broadcasted live. I was responsible for personally answering their questions and redirecting them when needed based on the category they fell into. Also I graded some of the student's final exams.

TriSoft Internship

Software Engineering Intern - TriSoft

Collaborated within a team of six developers on the implementation of a multi-agent AI system using OpenClaw. The system consisted of multiple specialized AI agents coordinated by an orchestrator agent and deployed on a Mini PC running Linux. My role focused on the infrastructure side of the project, including Linux installation, OpenClaw deployment and configuration, environment setup, and ensuring that the platform was ready for the integration and testing of the agents developed by other team members.

COMPUTER SKILLS

C#, Java, JavaScript, HTML, CSS, MySQL, Adobe Photoshop, Drupal, Microsoft Package, Claude

COURSES AND CERTIFICATES

SoftUni University

- QA Basics 6.00
- QA Fundamentals and Manual Testing 6.00
- Software Technologies 6.00

ADDITIONAL INFORMATION

I have interest in programming and I would love to extend my knowledge in the industry.
